Low Flying Bomber Part Of Camouflage Experiment

For those who wondered why a large bomber was continually swooping low over the area recently, the answer is that the flyers were cooperating in a camouflage experiment.

Types of camouflage material were used to cover military equipment and the plane from the Air Force in a cooperative venture circled at low altitudes in an attempt to spot the hidden equipment.

Governor Reappoints Miller To State Inventory Board

Governor James J. Blanchard today announced the reappointment of John B. Miller of Frederic, to the Michigan Inventory Advisory Committee.

Miller is owner of John B. Miller Forest Products and members of the Crawford County Economic Adjustment Strategy Committee and Natural Resources Sub-Committee. He is a member of the Grayling Fish Hatchery Committee and is serving his 10th term as a Crawford County Commissioner. Miller will continue to represent counties for a term expiring May 23, 1991. The reappointment is subject to Senate confirmation.

Satellite Equipment Stolen From Beaver Creek Residence

Stephen Kazup, of Beaver Creek, came home Thursday evening, Oct. 1, to find his house broken into and several items stolen. The thief forced out a window to gain entry. Among the items taken were satellite receivers, decoder, antenna control, microwave oven, telephoto lens, a drill, and leather briefcase. Kazup reported the break-in at 6:50 p.m.

Local Couple Injured In Accident

Linda Copeman, 38, and Cleland Copeman, 47, from Grayling, were injured Saturday, Oct. 3, in a traffic accident with Mariann Arthur, 50, of Kalkaska, who was also injured. All three were taken to Mercy Hospital, treated, and released

Sheriff deputies said Cleland Copeman, driving a pickup south on Manistee River Road, failed to yield to a van heading west on M-72 driven by Arthur. The pickup pulled out in the path of the van, police said. Citations were issued to the Copemans for not wearing seat belts plus Cleland Copeman was cited for failure to yield.

GPA Wonders If They 'Should Give Up The Ghost'

Some hardworking Grayling Promotion Association members spent several days decorating Grayling for Fall with ghosts and pumpkins as the theme. Almost overnight Grayling was ghosted in 19 different areas, from north to south, east to west, the eerie (but smiling) creatures appeared. Small children laughed and pointed, adults smiled, and the whole town enjoyed the sight.

Now, someone has quickly destroyed all that work. The library "ghost tree" is empty, and the city and county road commission buildings are left with just a pile of pumpkins to show where their companions once appeared. The Grayling Promotional Association is offering a \$50.00 reward for information concerning the theft of the ghosts. GPA enjoys working for Grayling but they're wondering if they should give up the ghost? If you have information call WGRY at 348-6171.

*550,000 Project To Repair Airport North-South Runway

By Don Geiss

The north-south runway at Grayling Airport will be completely replaced with a bituminous concrete overlay with funds supplied by the Michigan Department of Military Affairs and the Michigan Aeronautics Commission.

The runway, also known as 14-32, will first be dug up and have the existing concrete cracked and packed into the ground. The surface will be covered with a track coat to seal the ground. That coat will consist of 12,700 gallons of material.

The bituminous overlay will be from four to two inches thick and it will take 17,750 tons of the material to cover the 5,000 by 150 foot runway. The total estimated project cost is about \$550,000.

According to Lt. Gena Castleberry, Assistant director of Engineering and Housing at Camp Grayling, the project may be started this fall if the weather permits. She said that if it begins this fall, the airport will only be closed for two days while the area at the intersection of the east-west runway is replaced. Otherwise she noted, planes will be using the east-west runway to land until work is completed.

Col. Richard Schmidt, Camp Grayling commander said that the new runway should be a boost to the business community since many jets owned by industrial concerns and private planes use the facility.

City and county officials were elated with the announcement but qualified their comments with some opinions that reflected the feeling that the task is overdue.

Crawford County Commissioner Jeannette Kitchen, who is the county representative on the Transportation Authority, said that both runways were deteriorating and sinking and future use of the airport will be extended with the investment in the facility. She commented that many civilian and business aircraft use the airport including planes from CSI, Georgia Pacific, Weyerhaeuser, insurance companies and attor-

Grayling City manager Jerry Morford said that he appreciated the fact that the military is moving on the project. He said, "It is something the civilian population could not do by themselves." He noted that the runway had been deteriorating badly and needed to be replaced or the airport might have been forced to close.

County Transportation Authority Director David Frederick said that the runway structure was built in 1945, is deteriorated badly and needed to be replaced or the airport closed

County commission Chairperson Mary Harland said that she was delighted to hear the news and that the community would benefit by providing a facility that business and tourist planes can now safely use.

Schmidt and Castleberry also commented about another construction job underway at the south western edge of the camp. Two target ranges that are computerized will provide commanders with instant reports on target hits.

Castleberry said that the ranges are being constructed with federal money and will be completed in time for annual training this spring.

Schmidt said that the construction firm while working on the project has been using an access road they built off of the Portage Creek Road (South Manistee River Road). He commented that when the construction is finished the access road will be closed down to reduce the traffic on Portage Creek Road.

County Eyes Fee Hikes To Continue Ambulance Service

By Don Geiss

After the recent defeat of a millage proposal for the Crawford County Ambulance Service, a new plan to finance the operation next year has been developed without the necessity of a tax contribution by local citizens.

The plan will call for an increase for each run from the present \$125 to \$210 and for non-residents from \$175 to \$275. The per mile of run would also increase under the plan from the present \$2 to \$3.

The budget for next year would amount to \$158,600 with \$30,000 coming from the general fund of the county. Because the total county budget must be considered before the \$30,000 can be allocated the new proposal cannot be approved at this point. It appears that the only other choice that commissioners have is to abandon the service or reduce its scope.

If the service can hold to its budget, it is expected that the county expenditure will actually be about \$10,000 rather than the projected \$30,000 since the revenue generated by the runs, per mile charge and county appropriation would exceed the expenditures by about \$20,000.

For the present, the ambulance service can operate as it has during the past few months with two full time attendants as well as part time volunteers. The funding for the full time persons was budgeted to cover the remainder of 1987. If the new plan is adopted, a third full time Emergency Medical Technician would be employed.

The commissioners also agreed at their recent meeting to refuse to accept Medicare as a payment for ambulance runs since it returns only \$34.50 for each trip. Commissioner Jeannette Kitchen, who is the commission chairperson for the ambulance service, said that the county cannot afford to take that amount of loss.

DNR Shock Survey Finds Few Trout In Manistee River

By Don Geiss

Department of Natural Resources fisheries biologists are telling a sad tale to anglers of the Manistee River because results of their recent trout survey show them in very few numbers in that stream.

According to Kyle Krueger, fisheries biologist from the Mio office, crews have electro shocked locations in the river from Sharon to Deward and have turned up few trout until they checked above the Cameron Bridge.

In some locations, Krueger said where large trout could be turned up, the stream has yielded no fish. He indicated that as the crews progressed north, the trout were found more frequently until they reached a peak in the upper reaches.

At the same time that the fish populations has been found to be poor, the survey results show many chestnut lampreys are in the river. While the experts are not willing to blame the lampreys for the lack of trout, they concede that it could be a contributing factor.

We recently traveled with a crew to sample a section of the South Branch of the Au-Sable River at Smith Bridge. The men contrasted the fish that were turned up in that section with the Manistee River trout. They pointed out the many fish that were measured and tail clipped along the way and compared it with the very few taken in the same distance on the other stream.

An independent survey is presently being taken of Manistee River anglers to obtain their ideas on what should be done about improving the fishing. A key question asks whether the river should be poisoned to eliminate the lamprey. It would have some affect on the insect population and possibly further reduce the number of fish.

Many anglers are saying privately that there would be little to lose if the river were to be poisoned. It was treated some years ago and for many years after was considered a fine trout producing stream. Anglers feel that another treatment with an immediate planting afterward with legal and sublegal fish could return it to its former status.

KCC Foundation Aims For *50,000 Goal To

The goal of the 1987 fund drive for the Kirtland Comnunity College Foundation is to raise \$50,000 to fund an endowment for the maintenance of the nursing related reference books for the KCC Library.

There is a state requirement that the college library maintain up-to-date reference books for use in the nursing program, and that these books be no more than four years old. Accreditation teams periodically inspect the volumes and the age of the books in libraries.

At the present time, KCC needs to spend \$9,000 in the current fiscal year for new books. Of this, \$1,500 can be

get, so the Foundation has been asked to fund \$7,500 as soon as possible. After this year, it is anticipated it will take \$4,500 per year to keep the library nursing related books up to date, of which the college can furnish \$1,500 annually. The Foundation - board feels the income produced by \$50,000 will be sufficient to meet this need.

Help Nursing Program

Kirtland's nursing program is one of the college's most successful, from the standpoint of filling the needs of the community, and in that each class has more applicants than can be accepted. In fact, next year's class is nearly filled now.

The graduates of the nursing program have consistently had higher averages on their state board tests than most other schools including those offering baccalaureate degrees.

The appeal will be made. for the most part, by indiviual letters. However, should someone not be approached, the Foundation will be grateful for a donation of any amount sent to the KCC Foundation, 10775 N. St. Helen Road, Roscommon, MI 48653. The Kirtland Community College Foundation was established in 1972 for the purpose of soliciting funds from the private sector to augment and extend the financial base of the college.

Timber Sales, Hazardous Household Waste Top County Board Business

By Don Geiss

The National Association of Counties (NACO) is warning that a congressional budget cut for the Forest Service's road building will reduce timber receipts to counties by as much as 37 percent.

Counties share in timber cutting on federal lands according to the number of acres of national forest in their county. According to Crawford County Treasurer Joe Wakeley, the money goes to the road commission and the public schools on a percentage basis. He said that the county itself only receives the money but then passes it on to the other agencies.

In 1986 the money returned to the county from timber sales amounted to \$19,348. Of that amount the road commission received 25 percent, Crawford AuSable Schools, 10 percent and Gerrish-Higgins 65 percent. Wakeley said that the largest share goes to Gerrish-Higgins because most of the federal land is in South Branch Township and most of the students there attend that school system.

NACO pointed out that the reason for the reduced receipts would be if the road appropriations are reduced, the timber cannot be reached to cut it. They noted that it is foolish economy because the treasury of the U.S. actually benefits from increased timber sales amounting to as much as \$322 million.

Crawford County Commissioners at their meeting last week took no action on the letter despite the fact that NACO advised writing to any senator on the Appropriations Committee or the senators from Michigan.

As an aside, Wakeley pointed out that whenever the timber sales receipts exceed the 75 cents per acre that the government pays to county in lieu of taxes, the government refigures the land payment downward to 10 cents per acre. He observed that the county then gets punished for the increased sales and the extra so-called timber receipts to the road commission and schools is ac-

tually money that normally is paid to the county treasury in lieu of taxes.

On another matter at the commission meeting it was announced by Jeannette Kitchen, that the state will have sufficient money in the Hazardous Waste fund to conduct a household hazardous waste collection this spring in every county not yet having had such a cleanup. She noted that this county will then definitely hold a collection of the hazardous wastes this spring.

The Community Development Committee held a meeting recently, Kitchen said, and was able to loan a local business sufficient funds to purchase a heating system that will burn their waste products. The loan will then free up some of the company's money for additional product development, she said. Funds for the committee to loan come from the payback of the money received from persons who received loans through the federal housing grants. When payments are made by individuals on their loans, that money goes to a special community development fund.

A Consumers Power Company representative discussed with the commissioners a plan by his company to begin a child watch program in Crawford County called Eyes and Ears. It will revolve around company trucks and employees helping out children in trouble. The company will have a press release later about the program.

Sheriff Harold Hatfield announced that the Michigan State Department of Management and Budget has awarded the county a Secondary Road Patrol and Traffic Accident Prevention appropriation of \$27,324. He pointed out that it is a program that has been ongoing for a number of years.

Approach Cleanup has been completed using county jail inmates. He said that it was a complete success and an attempt will be made later if a supervisor can be obtained, to clean up local parks and river access sites.

required to complete an approved hunter education class and produce proof of completion or produce a previous hunting license in order to purchase a license for

the 1988-89 hunting season. Currently, only those between the ages of 12 and 16,

are required to do this. Beginning immediately, all persons must have a valid Michigan hunting license to participate in any way in pursuing a game animal with dogs during the open season for hunting that animal with dogs. In the past, after January 1, 1960, will be only the person shooting the

animal was required to have a license. This rule does not apply to persons participating in field trails.

There are several other important changes this year. Hunters should consult their 1987-88 hunting and trapping guides for more specific details.

The muzzleloader deer season is December 4 through 13 in Zones 1 and 2, the Upper Peninsula and the

northern Lower Peninsula. Bear hunters are now re-

quired to turn in their kill validation tag when they register their bear at an authorized Department of Natural Resources bear registration station.

Although it is not a change from last year, firearm deer hunters are reminded that it is illegal to purchase a

second firearm deer license until September 25, the day after Hunters' Choice deer license applications must be postmarked.

Special Olympic Torch Run To Pass Through Grayling

The Michigan Special Olympics Law Enforcement Torch Run will make its way down from Copper Harbor where it started on Monday, Oct. 5, and will pass through Grayling on Thursday, Oct. 8, around 5:20 a.m. then will proceed down Old 27 to Houghton Lake.

To focus attention on the goals and needs of Area 7 Special Olympics programs, special "PizzaPizza Parties" will be given for groups from C.O.O.R. Intermediate School District and the ROOC Sheltered Workshop, most of whom are Special Olympians, according to Area 7 Director Mike Eva.

On Wednesday, Oct. 7, one group will experience a field Grayling, where they'll enjoy a pizza lunch at 12:00

This year's goal is to raise \$75,000 for Michigan Special Olympics.

The Torch runners, comprised of Michigan law enforcement officials and organized by the Michigan Association of Chiefs of Police, will form two teams that will carry the Special Olympic Torch over 1600

The Run will start on Monday, October 5 in Copper Harbor and Ironwood in the Upper Peninsula where the runners will join forces at the Mackinaw Bridge. Another team of runners will start in Whitehall (north of Muskegon) on Thursday, October 8. The two teams of runners will meet at the General Motors Tech Center in Warren on Friday, October 9 at 7:30 p.m. for the concluding ceremony and the lighting of the Special Olym-

Where's IRV McISAAC been? I thought the cold weather that came in last Wednesday would drive him off the golf course and into warmer regions like the Avalanche building. We haven't been entertained by the incredible "Servin' Irvin" for a while. He should have quite a few new jokes saved

Speaking of the golf course, a couple weeks ago local pro MIKE HOFFMAN tied the Grayling County Club course record with a 32. Mike overcame a bogev on the round by shooting five birdies. He now shares the course record with DR. G. ROBERT SCHWARZ. Dr. Schwarz, who owns a chiropractic business in Grayling, says contrary to rumors, he is alive and well and has no immediate plans to retire.

Do you think BRETT STOCKTON can become the first person from Grayling to win an Olympic medal? Stockton, a five-time winner of the AuSable Marathon, is training to win a place on the U.S. Kayak Team for the 1988 Olympics.

Ever hear of the Sports Illustrated cover jinx? Now we may have an Avalanche jinx. The GHS girls varsity team led by coach HOWARD LEHTI went into last Tuesday

night's game undefeated at 5-0. Last week's Avalanche, laid-out before the game started that night, had a large headline telling fans of the team's fifth victory and undefeated season. Grayling lost a close game that night for their first loss.

Our apologies to Viking quarterback MARTY JUNG for a mistake in last week's paper. Marty threw a 70-yard pass to JEFF PALMER but the Avalanche gave the credit to another Viking quarterback CHRIS SKIDMORE. Marty has made many outstanding plays this year and the 70-yard touchdown pass was another one.

Staying on the subject of high school sports, the Avalanche tries to be a big supporter of school sports and we try to remember that they are a training ground for voung boys and girls to learn about a lot of things besides just winning and losing. We try to emphasize the good plays made by school players not the mistakes.

The Avalanche, limited by the small number of staff members, can't attend every middle school, freshman, junior varsity, and varsity game. Most school coaches have asked us to highlight the varsity sports letting the younger teams focus on learning the game rather than winning and publicity.

CONSIDERING BORK — In the attempt to move from the federal appeals court to the United States Supreme Court, Judge Robert Bork has undergone congressional and public scrutiny the intensity of which defies modern comparison.

Oh, President Nixon appointed a couple of fellows to the Supreme Court who didn't make it, but the public concern and controversy was mild by comparison with today's Bork show. For example, who can even remember the names of the rejected candidates today?

And when President Johnson tried to make Judge Abe Fortas the Chief Justice, concern about his rejection was largely limited to the senatorial chambers, with the anti-Fortas forces led by Michigan's own then-Sen. (and now state Supreme Court Justice) Robert P. Griffin.

But today's show is different.

YOU'VE GOT TO wonder if Judge Bork would be the center of such a sideshow if two important elements were missing from today's scenario:

1. If there were not such widespread public access to the proceedings via television, would the inquiry be as intense?

2. If there were not a presidential campaign going on at the same time, with the chief inquisitor — Sen. Joseph Biden, Senate Judiciary chairman — as a would-be president when the whole thing started, would opposition to Judge Bork be so finely tuned and broadly choreographed?

It's very likely, of course, that Point 1 and Point 2 are inter-dependent.

It's also apparent that Sen. Biden hoped his presidential campaign would be advanced by wide attention to the Bork hearing. Of course, just the opposite has happened. Sen. Biden is now out of the present presidential race, tripped up by his own statements and by occurrences of many years ago, which now seem important at least to

When Sen. Biden dropped out, he commented about one of the exchanges which the media had made public: "It's so easy t to make things look like there's something sinister about them I guess every single word I've said is going to be dissected now."

Yet, isn't this exactly the same tactic upon which opponents of Judge Bork, led by the same Sen. Biden, are basing their case?

There may be something to the theory of poetic justice after all.

CONSIDERING BOZ - It's awfully tough for most folks to get worked up about the issues for which professional football players are on strike. In a nutshell, the most usual public reaction varies from "so what" to "who cares."

Which reflects my personal attitude completely.

I was especially touched by a news photo of rookie linebacker Brian Bosworth, late of the University of Oklahoma and now with

the Seattle Seahawks. Mr. Bosworth was pictured about ready to

The Fishing is Horrible Now Out at Lake Margrethe

Dear Gerald Worden.

My hat is sincerely off to you, for your letter of response on the pike in Lake Margrethe. I lived on the lake for 13 years, when I was younger and I've watched the lake go downhill steadily over the years. I've also watched and followed the DNR take pike to Houghton Lake. They are liars, they

want you to believe what they want.

There are sewers draining into that lake from cottages, resorts and homes. When you put your shanty out for ice fishing, you can't see bottom at 10 feet of water. The last 4 years I've put my shanty on Higgins Lake. I've fished Margrethe for 23 years and know every hole in

County Ambulance Service Was Good

To the Editor:

I would like to voice my experience regarding the Crawford Co. Ambulance.

The many times I had to call on them they were here in minutes and were kind,

thoughtful, and very efficient regarding the patient, plus helpful to me. Oxygen was available at once. Save the County Ambulance.

Put Dead Animal Photos Where They Belong in Newspaper

Dear Editor:

As a part-time resident of Beaver Creek, I receive the Avalanche, mailed to my home in Taylor every week. I take exception of the picture on the front page of Jim Bassett, next to the bear he shot. I, and I believe most people, love to see animals alive, not dead. Just last fall, a fox ran in front of my wife and I while we were driving to the great north country.

If this is a sport event, let's

Governor Calls For Coordinated Crime Attack

Governor James J. Blanchard is attempting to put crime-fighting in the fall legislative spotlight.

Blanchard was particularly critical of courts for dealing with crime only on a case by case basis, as federal and state jurisdictions seem at cross purposes, and said state prisons should not be used to house criminals who are not violent threats.

The governor, during a recent press conference with Speaker Gary Owen (D-Ypsilanti), said the crime agenda should be made one of the three top priorities along with economic development and state government solvency. He included several items previously outlined in his State of the State message and House Democrats' anticrime plan.

Blanchard said he intends to meet with an ad hoc House-Senate anti-crime committee to see what he can do to get a legislative package this fall.

And, he said he intends to sit down with elements of the law enforcement community, like judges and police officials, and perhaps the Supreme Court, to "see what things we can do to have a more effective coordinated war on crime."

"There has to be a more aggressive, coordinated approach by law enforcement. It is a source of great frustration when you hear state courts say one thing and federal courts another," the governor said.

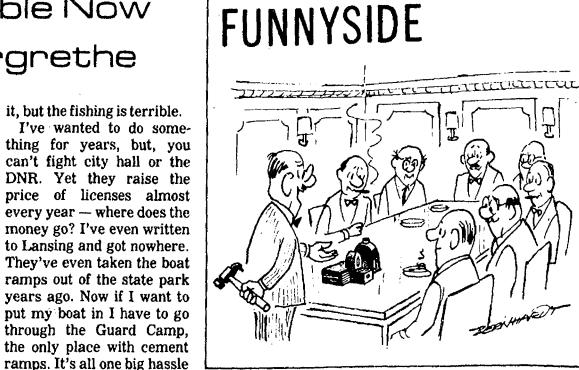

He said courts "do not seem to be taking their responsibility for solving the problem. We've done our part. We've raised the money, built cells and hired troopers. We'd like some help and not the purist position from the federal courts."

U.S. district court judges have held the state in contempt for overcrowding, at one point this summer ordering a halt to new admissions, and have stopped in order improved conditions and services, including osychiatric care.

Blanchard said he would ask judges what they would do to help solve the problem, and said sentencing guideline reform would be a major factor. He said, "We should make sure we do not send people to prison who are not a violent threat to others."

Department of Corrections deputy director Leo Lalonde said a recent Michigan State University study identified 300-600 inmates of the nearly 21,000 in the system who should not have been sent to prison in the first place. Lalonde noted that is the equivalent to one new prison.

Last year, 53.7 percent of the 8,284 criminals sent to prison were convicted of what are classified as non-assaltive crimes.

From Our Corner...

A few notes from the Buckeye State, and a few afterthoughts from the Wolverine State...

This is the first vacation we've taken since last April so, we decided to take a little trip down to the state Woody Hayes made famous, and also to visit our transplanted

We have been here four days and have watched Stefany, who is in the fourth grade. bring her homework from school...

We tried to help on some of her studies... one would think she was in high school, the amount she brings...

I came to one conclusion...I'm glad we're not in the fourth grade, I doubt if I would

One of the problems in this area is that they have so many antique shops...our bride would go bananas when we would see one and I wouldn't stop...Toni didn't help my cause, she would take her back to them...

Would you believe, at one shop she bought a down-pillow fluffer...we really needed that...we don't have a duck or goose pillow in our house...

I try to tell her our house is loaded with antiques...why add more...that just makes it harder for the kids to get rid of the junk when we're gone ...

Back to good ol' Michigan...after our last endeavor to bring the turkey out of hibernation, and we wrote how we had accepted the guard, even with noise...we were asked how come we didn't answer Pete Waldmeir's column in the Detroit News downgrading Grayling as a place to live...it was in June, I think...

At the time we thought about it, and said, oh heck his column will be forgotten like the last New's columnist wrote about coming into Grayling and couldn't find his way out of town...for the life of me, I can't remember his name...

The writer did come back to Grayling during our centennial and had pie thrown in his face in the city park...maybe we could get Waldemeir back during January or February to test his ears on noise then...

I have to wonder if someone invited him to come to Grayling, especially in June, on a vacation when it just so happened the 38th Division was in training for two weeks with their big guns and many helicopters...

He headlined his column, "Little Beirut, on the AuSable"...he wrote vividly on how much noise he put up with at his little cabin on Lake Margrethe...I haven't talked to anyone in Gravling he had talked to about his discomfort whlie he was here... At the time, what really bugged us was the

fact someone writing about a small town up north with clean air, and a serenity that is only interrupted now and then compared to the jungle from whence they came. He called Grayling, Beirut...I wonder

what his definition is of Detroit... The hardship he endured in his week at

Lake Margrethe was friendly noise...not enemy bombs exploding... He must live in an ivory tower, and only

reads his own column...

Everyday I pick up a Detroit paper there are a couple more young people murdered... or someone raped...or robbed...or a car At the present, nearly 300 youth have been

shot, while 55 under 18 have been murdered in Detroit...and he had the gall to call Grayling, Beirut...

No, Mr. Waldemeir, we don't need your derogatory writing about Grayling, like we didn't need what's his name's column...

Us folks up north have enough trouble vying for tourist business, we don't need your kind of help...next year, stay in your ivory tower, or go someplace else, we won't

Since we got out of the salt mine, we haven't missed work at all...in fact now when I get up in the morning I don't have anything to do...and when I go to bed at night, I only have it half done...

Guess it's time to silence the second issue of the turkey and say goodnight to T.J., Stefany and Amber...

Ponderings

Dig Down and Give to United Way

By Don Geiss

"Thanks to you Crawford County someone smiled today" is the statement on the cover of the United Way brochure. To see that smile on the face of a child or an adult when they are aided in a time of need is about the most satisfying human response that any caring person can behold.

At the kickoff breakfast last Thursday one of the features was a professionally made film featuring many Hollywood actors in roles about the history of the United Way. It was an excellent presentation but the thing that brought tears to our eyes was the young twins that really were the stars of the show.

Those little girls were born with brain damage, one more severely than the other. They were loved by their parents but also loved, cared for and taught by trained volunteers.

One need not look to Hollywood or to any distant community for that same trained volunteer because they have been with us all of the time. That loving care is not restricted to children either because many of the groups who depend upon donations are equally as helpful to adults.

Many of us take for granted the volunteers who have worked around us for years and the organizations they represent. Just for a reminder let us take a look at the names of the groups who benefit by citizen donations.

AuSable Valley Youth Services, Crawford County AuSable Day Care, Crawford County Sibs for Kids (our equivalent to big brother/ big sister), Crawford County Chapter of American Red Cross, Community, Family and Children Services, 4-H in Crawford County, Girl Scouts, Hospice of Crawford County, Kenquest House (for pregnant adolescents), Mercy Child Care Center and River House Shelter (victims of domestic violence).

It is obvious by the title of the organization that they are vital to this county because the needs they fill are helpful to the folks around

Crawford County has always come through when there is a just cause. We remember Susie who needed some medical help in Chicago. People here attended benefit functions or just plain donated. When a new ambulance was needed we came up with over \$30,000 to get it purchased.

This year all of those agencies collectively need \$41,750. Welcome the folks who ask for donations with open arms because they are more of those fine volunteers who help out in this county.

Most importantly put up as much as can be afforded with that good feeling that comes with the knowledge that one of our own is receiving much needed assistance.

Local Students To Perform In Sunday's 'Mostly Mozart'

This Sunday, October 11, the long awaited "Mostly Mozart" concerts will be presented. Highlighting the concerts will be ensembles from the Traverse City Symphony, tenor Mike Palmer, vocal duet of Sandy Stanley and Betty Thomas, the Milltown Chorale, and flutist, Arthur Kerle. In addition to these finely polished contributions, the promising talents of five area students will be showcased.

Melissa Miller, daughter of Mike and Alice Miller, is a 12 year old seventh grader at Grayling Middle School. With Miss Elizabeth Jackson accompanying, Melissa will sing Mozart's "A Tragic Story." Although there is currently no vocal music in the Grayling Schools beyond the fourth grade, Melissa has made the most of other vocal opportunities in this community and elsewhere. She has been a member of Francis Episcopal Church's Joyful Noise Choir, having done solos for that as

well as for Daniel's Den. She was a 2-year niember of the Grayling Elementary Select Choir, has sung parts in two musical productions of Kids Theatre, and has been a singing cast member for the Old Town Playhouse in Traverse City.

Amy Hough, 17 year old

Senior from Grayling and daughter of Dr. James and Florence Hough, will be playing the Mozart "Piano Sonata in C, First Movement." Amy has studied piano for the past 11 years and is now studying with Mrs. Heather Ralph. In both 1986 and 1987 she participated in the State Music Festival with both clarinet and piano, receiving a I rating for her piano performance in March of 1987. She is quickly becoming a proficient accompanist as well, having accompanied 11 middle school students for their spring solo/ensemble festival last spring. Amy is currently the accompanist for the youth choir at Michelson Memorial United Methodist Church.

Susan Brammer is in 8th grade at Traverse City Junior High School. She has studied violin since age five. She was twice selected by audition for the "Young Artists" recital series and has

received scholarships to Blue Lake and Interlochen in both violin and voice. In 1984, she was given the "Most Outstanding Camper" award by Blue Lake. At solo and ensemble in April, 1987, Susan received a I rating on both her solo and string quartet ensemble. Susan is very interested in theatre and in this past year played "Britgetta" in the Sound of Music and was understudy for "Oliver" in Oliver. At this time she hopes to pursue a career in some aspect of the theatre. Susan has chosen to play "Concerto in B Minor, Op 35" for her contribution to this year's concert.

Jason Teddy, 17 year old Senior from Grayling and son of Mr. and Mrs. Kevin Teddy, will be playing Mozart's "Minuet in F Minor" on alto saxophone. Jason moved to Grayling from Petoskey where he was a member of the pretigious Petoskey Marching/Symphonic Wind Ensemble. He has received high marks at the state music festival for both solo and ensemble work and was a member of the 1986-1987 State Honors Band. Through his achievements he's received a full scholarship to Blue Lake Fine Arts Camp, invited to tour Europe with the baritone

saxophone, and was recipient of the Louis Armstrong Jazz Award. Jason has been a wonderful addition to Grayling High School as well as its instrumental music program, Currently he is the senior class president, member of the Varsity Football squad, and member of the Grayling Viking Band, which he describes as the fastest improving band in the state. Gretchen Dice, Grayling

7th grader and daughter of George and Janet Dice, will be performing a liturgical dance to Mozart's Menuetto, Movement 3 of Divertimento No. 17 in D Major. Not only a lovely dancer, but in past Bach (1985) and Handel (1986) concerts, Gretchen played violin solos and has performed locally on her oboe, violin, and piano. Dance instruction has been with Louise Tournaud since Ms. Dice was four years old. Oboe tutoring has been under Nancy Brammer (principal oboe in Traverse City Symphony Orchestra) violin study with Judy Magsig (Gaylord), and piano instruction began with Jan Olson (Gaylord) when Gretchen was 3 years old. She read music before reading

We appreciate all the coverage that the Avalanche offers to us throughout the year — it reaches out to so many of you. The decoration theme was unique, in observing the Sesquicentennial of Michigan. This was done by our committee, Dorothy McLeod, Lois LaGrow, Wilma LaGrow.

We must give our president a big pat on the back for all the work done on our school room at the Museum. It has taken a lot of hours and is taking shape for something for us to be proud of.

All the rest of us who helped in anyway to make this past year productive in Scholarships, Awards, Homecoming, — we thank each other.

On Thursday, August 6, 1987, the seventeenth annual Golf Day sponsored by the Gravling Kiwanis Club was held at the Grayling Country Club. Over 120 golfers turned out for a beautiful day of golfing, dinner, and games. This year's tournament featured a special service club competition and Kiwanis Interclub competition, as well as the overall first, second, and third place titles. The team of Hoffman, Hoffman, Juntilla and St. Germain took first place honors.

Dave Jansen, Bob Grimm,

John Wejrowski, and Paul King and Bob McIntosh, Harvey Rowland, LaMont Hamlin, and Arnie Stancil tied for second place. The Gaylord Kiwanis Club team bested the local foursome of Stripe, Knasel, Allen, and Feeman. In the service club contest, the Shriners' entry of Ab Sager, Chuck Fick, Roy Vogelsburg, and George Kent bested the teams fielded by the Rotarians, Masons, and Kiwanis. Well over a \$1000 in cash and prizes was distributed during the awards dinner.

Vikings Win 2nd Straight, Dump Gaylord 28-11

Gaylord's Homecoming last Friday and Grayling outright spoiled the evening for their northern rivals winning 28-11.

Grayling kept Gaylord in a hole right from the start of the game. Gaylord won the toss and elected to receive. Grayling chose to kick with the wind at their back. Punt-

ing into the stiff wind kept Gaylord backed up until about 20 seconds left in the quarter. Grayling used two time-outs to make sure Gaylord punted into the wind. The strategy paid off when a bad snap gave Grayling a safety.

On offense Viking quarterback Marty Jung scored two touchdowns on option plays,

Rusty Argue scored on a long run and Jeff Wolcott carried one over in short yardage.

Viking coach Don Stowers said the whole offense line improved their blocking and said right tackle Brian Kernstock, tight end Jason Teddy, center Jayson Welser, and guard Flaskie Robins had good games.

Stowers also said Marty Jung's punting was an important part of the win. The Vikings used two quick kicks which eventually led to good field position.

Ted Baynham had a perfect night snapping punts for Grayling while Gaylord had problems snapping punts on the cold night, said Stowers.

On defense Stowers said the secondary played the pass better and helped more on outside runs.

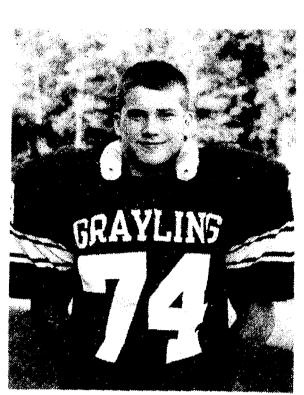

He said the Vikings' defense came up with the big plays after Gaylord had a 1st and goal. Kevin Bickford broke through to give Gaylord a three-yard loss and they had to kick a field goal.

The Grayling J.V. team fell 32-14 to Gaylord but the game was close. Trailing 14-8 Grayling ended the first half on the Gaylord six-yard line. Starting the 2nd half, the kick off died at the Grayling five-yard line and the Vikings never got out of the hole. They punted to the 50-

yard line but it was returned to the 20. Gaylord scored to go ahead 20-8. The Vikings scored on an 8-yard run by Shane Fraser to come back 20-14. Grayling had the ball at midfield with six minutes

to go but couldn't score. Gaylord added two late scores.

Mick McKinney scored Grayling's first touchdown and Dana Mirate added two points on a run.

Grayling Drops Two Close Games on Road

Grayling's undefeated streak ended at 5-0 last week with two tough losses on the road to Chebovgan 49-46 and Gaylord 52-46.

Viking coach Howard Lehti said the team is looking forward to playing those two teams at home. Both Cheboygan and Gaylord were undefeated in league play going into a contest this week between the two class B schools:

Grayling's league record fell to 2-2. The Vikings traveled to Charlevoix Tuesday night and play St. Ignace at home Thursday, Oct. 8.

Cheboygan led 17-10 and 29-24 after the first two quarters. Grayling then outscored them 17-4 to take an eight point lead. In the fourth quarter with three minutes to go, Grayling still led 46-40 but had a hard time getting the ball up the court.

"Both teams had very effective presses," said Lehti. "Our press hurt them in the second and third quarters and their press hurt us in the first and fourth quarters."

Lehti said his team ran the fast break well and rebounded well against the taller Cheboygan team. Dena

4-H Soccer Kicks Off Season

By Don Geiss

Perhaps one of the lesser known league competitions in the Crawford County area is the 13-team soccer matchup which is operated through the 4-H Program.

According to league President Ginger Casey, the program had its debut in 1984 and presently has about 150 young people participating. She said that the kids range in age from six to 13 and teams compete against each other in like age groups.

Casey said that there are four teams in the six to seven vear bracket, six teams in the eight to ten year group and three in ages 11-13.

basic skills. Casey noted, and winning means improving and doing one's best. She said, "Most of all it is important that our youth have fun." She observed that the program is helping to shape a positive attitude in said. our future citizens.

The costs to field the teams require only a minimal outlay, Casey said. Last year the Grayling Rotary Club donated \$200 for new goals, she noted, "We made enough this past year to be able to purchase new balls," she said. Money is normally spent on such things as shirts for each team, she noted, but any that is left buys equipment. "We were able this year to purchase new goalies gloves, goalie's vests, whistles and stopwatches," she said.

The team sponsors this year include the Tigers sponsored by the Ramaswamy

family, Grayling State Bank. Cornell, Don's Accounting (Don Prause), Perez CPA, Davis Jewelry, and Ramsey Air Conditioning. Also sponsoring are Grayling Floor Covering, Grayling Animal Hospital, Northern Michigan Emergency Medical Service, Chemical Bank North,

Weverhaeuser and Cross's

Kwik Stop. Casey said that the Crawford AuSable School officials have cooperated fully in the league permitting them to use school grounds for the games. The end of the season games are played on the football field, she noted. Entry to the final games are by Volunteer coaches teach Glen's Market green slips and persons are asked to write their names on the backs of them. Periodically a slip is pulled and the person whose name is on it receives a door prize donated b by a local merchant, she

> It was noted that despite the cold weather last Saturday morning, many parents were there cheering on the voungsters. The teams are co-ed so girls were out there mixing it up with boys.

> Casey has been president for two years now and husband Jerry coaches a team. She expressed appreciation to Shelly Hubbard and Margaret Cook of the Cooperative Extension Service for their assistance.

Casey said, "It's a sport of running and passing. It has very special appeal because it is fast moving, has uninterrupted action and all youths get to play."

Thayer led the team with 14 points, hitting on 8 of 13 free throws. Melanie Ojala scored 11 points and led the team with 13 rebounds. Deanne Phelps scored 8, Lori Gust 6, Carrie Trudgeon 5, and Jenny Money 2. Trudgeon also had 9 assists.

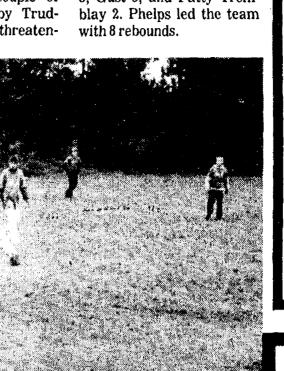

Against Gaylord, Lehti said the opponents dominated the boards in the third quarter.

"It was the first time all year we really had problems rebounding. Gaylord got two, three, and four shots. They were getting extra

shots and we couldn't get our fast break going."

Gaylord moved out to a 40-32 third quarter lead and led by 13 early in the fourth quarter. But Grayling came back. Led by a couple of three-point shots by Trudgeon, the Vikings threaten-

Trudgeon led the team with 12 points. A.J. Pratt had 9 including a second-quarter three-point shot. Phelps had 7, Oajala 6, Money 4, Thayer 3, Gust 3, and Patty Trem-

Here's one that may sur prise you...Of the 28 teams in the National Football League, 26 of them have made the playoffs in the 1980s...The only 2 teams that haven't made the playoffs in any season in the 1980s are the New Orleans Saints and the Indianapolis

Here's an amazing fact.. Although Joe Montana has been one of the great quarterbacks in the National Football League in recent years, he wasn't selected until the 82nd pick in the 1979 NFL draft ...incredibly that year, NFL teams picked 81 players before Montana.

If you didn't think the year 2000 is close, consider this. In the year 2000, many of today's sports stars could still be playing—for example, quarterbacks Vinny Testaverde and Bernie Kosar will be just 36 years old then, and pitcher Dwight Gooden will be only 35 years old in

IN MEMORY

In memory of Kevin LaMotte. A million times we've thought of you. A million times we've cried. If love alone could have saved you, you never would have died. In life we loved you dearly, in death we love you still, for in our hearts you hold a place that no one else can fill. It broke our hearts to lose you, but you didn't go alone, for a big part of us went with you, the day God took you home on October 9,

SHE HAS PARENTS NOW SHE NEEDS A FAMILY A FAMILY THAT CARES ABOUT HER

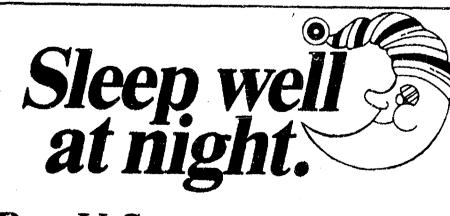

Susan has learned that life is not always easy. She has been in trouble at home, in her school, and has bounced from one foster home to another. She can't live with her parents any more. There are many kids like Susan who have emotional or behavioral problems stemming from a variety of causes. Often abuse or neglect is part of the pattern.

Susan needs a caring family to provide stability and to teach her new ways of living. She needs a second chance.

The Professional Parent Program wants couples who like kids, have good skills with young people and who are willing to take a troubled child into their home. We provide training, ongoing support services and monthly income for qualified couples.

Each year, the C.O.O.R. Intermediate School District in conjunction with the local school districts, offers Vocational Education Programs at Kirtland Community College and the local school districts. These programs are designed to prepare youth for a broad range of employment and training services and are offered under the guidance of certified teachers, counselors and cooperative education coordinators. Specialized services are offered in these programs for those students that are unable to succeed without special assistance.

All Vocational Education Programs follow the districts policies of non-discrimination on the basis of race, color, national origin, sex, or handicap in all activities and in employment. In addition, arrangements can be made to ensure that the lack of English language skills is not a barrier to admission or participation.

For information about these programs, contact:

South Branch Trout Stocking Survey

This fall fisheries biologists and technicians from the DNR have been electroshocking local trout streams to determine fish populations and sizes among other facts. The series of photos attempts to explain how the shocking process works.

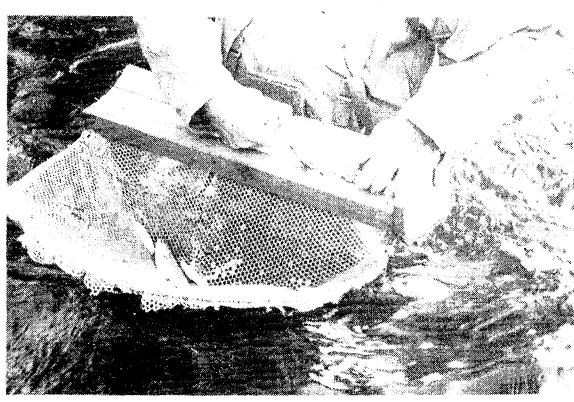

Photos by Don Geiss

Workers Jerry Casey (L) and Biologist Kyle Krueger (far right) carry electrical probes which they dip into the water to shock the fish. Each of the men and Ed Smiddy (top center) carry small dip nets to capture the fish. Mike Petrie (center bottom) also carries a dip net and hauls the supply boat.

Behind the probers Mike Petrie is shown hauling the supply boat and John Norcross holds the "belly basket" into which the fish are dropped after capture for measuring and to identify the species. Louie Rioux (R) holds the clipboard which contains papers to mark down the size and species.

Norcross takes the fish from the "belly basket", measures them, calls out the species to the recorder and then clips a tiny piece off the tail. The tail clip tells researchers the following year that the fish has been captured again.

Kreuger drops a fish that has been measured into the boat holding tank shown here at the top of the boat. Behind the holding tank is the generator which powers the electric shocker.

When the fish in the holding tank have recovered sufficiently, they are removed and more accurately measured by Norcross. He takes a scale sample and places it in the small envelope held by Kreuger. The species of fish and the more accurate measurement are marked on the outside of the envelope. Later in the laboratory the scales will be viewed under high power and they will tell the age of the fish.

The Gospel of John

Part #6 The Incarnate Christ When God stepped out of eternity to take a body of flesh and blood, it became one of the most profound events in history. The eternal, omnipotent, omniscient, omnipresent creator of everything, took a human body and dwelt among us. "And the Word was made flesh and dwelt among us, (and we beheld his glory, the glory as of the only begotten of the Father,) full of grace and truth." (John 1:14). This Word of God was our Lord Jesus Christ of creation. (John 1:1-3). This same Word of God is coming again from Heaven to judge the world. (Revelation 19:10-16). Every human being will either face Jesus Christ as God and savior or judge.

Our Lord Jesus Christ did not begin as a baby in Bethlehem. Neither did he have a created beginning as the Jehovah Witnesses, Mormans, and other cult groups believe and teach. He is, was, and will always be eternal God, co-equal with God the Father and God the Holy Spirit. He is not only the "only begotten of the Father," but there was never a time when he was not the only begotten Son. Neither was there ever a time when God the Father was not the Father. The entire trinity or Godhead is eternal, or without origin. "Jesus Christ the same yesterday, and today, and for-

ever." (Hebrews 13:8). "...And we beheld his glory..." The glory of our Lord Jesus Christ was the glory of our God. "Who being the brightness of his glory,

and the express image of his person, and upholding all things by the word of his power, when he had by himself purged our sins, sat down on the right hand of the Majesty on high." (Hebrews 1:3). The glory of Jesus Christ was the glory of God because He was "the express image of his person", or the very image of God. Because He is God he is to be worshipped as God, not only by humans on earth, but by the angels of Heaven. "And again when he bringeth in the firstbegotten into the world, he saith, And let all the angels of God worship him." (Hebrews 1:6). Anyone who refuses to worship Jesus Christ is a "deceiver" and "an antichrist for rejecting the doctrine of Christ. (2 John 7-11). His divine name "Emmanuel" means "God with us." (Matthew 1:23).

This is the great mystery of godliness. Paul describes it in I Timothy 3:16: "And with controversy great is the mystery of godliness: God was manifest in the flesh, justified in the Spirit, seen of angels, preached unto the Gentiles, believed on in the world, received up into glory." Worship Him as your God today. (Phil 2:9-11).

The Deacon's Speakin'

Deacon Bob Nolan

Scripture Reference: Matthew 22:1-14

Many of us have heard the old phrase; What if you gave a party and no one came?" That's the situation the king in our Scripture reference finds himself in when he throws a wedding banquet and those whom he has invited do not bother to show

Over the centuries, this parable has often been used preach against the Pharisees and others in power. It appears that those who are in the "in" crowd do not bother to accept the king's invitation - much as the Pharisees and others in high society in Jesus' time really did want to be ministered to by Him.

But the parable is telling us a timely story about ourselves as we seek to live out our faith in the modern world. For those in Church, it can be awfully tempting to "That group would never find our worship and church appealing," or "We'd several ways. If you know Jesus Christ, then you are someone "in the know." Don't ignore the in-

love to minister here or

there, but those folks just

the responsibilities we all

wouldn't fit in.'

vitation He gives you to do great things for Him. Put your faith in His voice calling you.

If you are always "on the go," take time to slow down, listen to the invitation - and come to the banquet.

If you do not know Christ, He invites you to His banquet of life. Come to the banquet. If you do know Him - do not be too busy for your Saviour. Be "in the know" and "on the go" - for Christ and no other.

Meeting Set To Organize Local Chapter To Help **Emotionally Disturbed Children**

An organizational meeting for a local MAEDC (Michigan Association For Emotionally Disturbed Children) Chapter will be held October 14, 1987 at 7:00 p.m. in the Student Center Building at Kirtland Community College.

The mission of MAEDC is to stimulate the development of needed services for all children with emotional problems, informing governmental, state and local agency administrator's and the general public of gaps in service, and developing solutions to the diverse problems which face emotionally disturbed children. Local MAEDC Chapters also provide support, advocacy and education to affected fam-

A representative from the Traverse City MAEDC Chapter will be available at the meeting to provide information about beginning a Chapter to cover Crawford, Ogemaw, Oscoda, and Roscommon counties.

Parents who are frequently worried or upset about their child because of his or her behavior may be helped by attending this MAEDC meeting. These children exhibit one or more of the following behaviors: 1. Inability to get along with other children. 2. Problems in school with following

Old Business.

Ms. Latuszek discussed a proposal for a computer for the Police Department. She noted that Police Chief Stephan had prepared a letter reference the computer. The computer would capture surrounding area police information for the City Police Department and enhance their operation. The purchase of the software would be shared by 5 governmental units which would greatly reduce the cash outlay per unit. A lengthy discussion of the program took place. Ms. Latuszek recommended the city join in this joint operation with several other communities. Council decided to delay any action on the matter until the September 28th meeting.

Council discussed setting up an employee recognition program for Volunteer Firemen and Police Auxiliary. The City Manager and Councilman White presented a proposal to do so.

Moved by White, supported by Thompson that the recognition program be adopted and implemented effective 1-1-87. Ayes: 5, Nays: 0, Absent: 0, motion carried.

BUDDY'S WORKSHOP

Repairing An Oilstone

I don't think they make oilstones the way they used to. One of my favorites broke recently, and I wonder if there's any way to repair it.

I agree with you about today's sharpening stones. For some reason, they just don't have the same feel as older, broken in stones. And you are in luck, because many times a broken stone can be repaired. Here's what to do: First, you have to get the stone completely dry. To do this, put the stone on a hot plate or in an oven until all the old oil is gone. After the stone is dry, scrub all the surfaces with a drycleaning solvent or a mixture of ammonia and water, which removes the built up dirt and gum residue. Next, use the strongest epoxy you can find and liberally spread it on the break, then clamp the stone. In a day or so, the stone should be ready to use. Don't forget to re-oil the stone since you removed all the original oil. and store the stone in a moist, cool place. Heat and sunshine will dry the stone out quickly.

I made some extra closet space and put in a half-bath, and my neighbor suggested I upgrade my coverage on my homeowner's insurance. Was he serious? I really didn't spend that much money.

It's a good idea to have your agent review your home every once in awhile. Even a few small projects can add up to make your house worth more. If there is anything you don't want underinsured, it's your house.

One of the concerns of landowners since the passage of the Recreational Trespass Act in 1976 has been liability. Even though the Act had a liability release (Sec. 6), landowners were concerned about what would happen if someone was hurt while on their property.

The recent passage of another law should go along way toward easing landowner fears. Act 110 of 1987 amends a general liability protection statute to exempt landowners from most civil suits arising from persons hunting on their property.

Worms tunnel through the fallen debris, feeding on it as they go and starting the breakdown. Insects and small animals such as mice do their share. The main decomposers are the many fungi and bacteria. While they are more active during the warmer months, they are at work under the snow converting the litter into a rich layer of humus which will help promote new plant growth in the spring.

We discussed things such as humans,
Just taking what they want.
We also discussed people,
Who are tactful or nonchalant.

The Charm of the Lone Pine Restaurant Lives On

Business

By Don Geiss The notion occurred to Marilyn Stampfly, owner of The Lone Pine Restaurant, that she might well be the longest serving restaurateur

in the City of Grayling.

As she puzzled over the factual nature of that claim, she also wondered whether or not the building might be the oldest exclusively restaurant use structure in the city. She commented that

she began in 1968 and the building has been in service since about 1944.

To obtain information on the very early history of the Lone Pine, we turned to Sally Wert who with husband Carroll purchased that facility in 1947. She noted that there was a gas station attached to the side of the building as well as restrooms.

She remembered many small details about owning and operating the restaurant. The following are some of her thoughts -

They may have been the first to sell "basketburgers". A Detroit Free Press article at the time stated "It must be the second cousin to a hamburger".

People lined up for service at the restaurant. They were the first in the area to have relish travs and candles on the tables.

Carroll had owned a restaurant with his brother in Jonesville, Michigan, before coming to Grayling and thus had had much experience in being a chef. The couple developed a reputation for serving excellent meals thus they had the local clientele as well as many state dignitaries stop there.

Senator Phillip Hart raved about the mashed potatoes and said that he must learn how they were made to tell his wife. It was very difficult for him to believe it when he was told that they were instant potatoes.

The Kiwanis Club met at the restaurant every week. Governor G. Mennen Williams and family stopped there frequently on the way to Mackinaw Island.

The little man (Johnnie) who was the person and voice for advertising Phillip Morris Cigarettes stopped

The Werts handled many catering jobs and often returned to the restaurant to do dishes until 2 or 3 a.m.

tables and did the dishes. For many years until the time he passed away, Carroll was the annual chef during bow hunting season at Fred Bear's Hunting Camp.

and poured coffee, waited on

And then there was the day - Fred Bear was being honored and the restaurant had signs in the window saying Fred Bear Day. Two drunks came into the restaurant, read the signs and insisted on having a meal of fried Bear.

Additions to the building during the Werts tenure in the business included more than doubling the table space by constructing a larger room than the original. The gas station portion was quickly turned into part of the restaurant when the Werts bought the facility. Many changes in plumbing and decor were made during their stay.

In 1968 the Werts sold the

restaurant to John, Connie ren. and Marilyn Stampfly and more recently Marilyn bought out the other two

Once again the inside decor in the main dining room was changed and a storeroom added. An outstanding part of the decor is a number of wood carvings done by Cheryl Stephan Baker. Tables have a touch of her talent while a major outdoor scene is burned into a massive plank sawn at the Stampfly Sawmill. The plank of maple was sawn from a tree that was removed from behind the

Grayling State Bank. Another touch of art comes from a large wood carving by Dan Schrock. His talent is well known in the community because of the many pieces he has created and placed in many locations.

Stampfly said that they too have been touched by the history of the restaurant. One lady stopped who once cooked there when the Werts owned the establishment. People who were children when they first stopped continue to sample the fare but now bring their own child-

Hunting seasons bring back many men who make it a tradition to eat there. Fred Bear when he has the opportunity also renews old acquaintances at Lone Pine.

Recently the restaurant held a benefit affair for the Fish Hatchery and was able to help out the treasury

there. The business employs 16 persons year-round. Stamp. fly said that the restaurant offers a full family menu with smaller portions for

children. The long history of Lone Pine is far from over as it becomes plain to anyone stopping by. Business continues to boom and old customers as well as new find the charm of the long time restaurant.

By the way, Marilyn suggested that if anyone can supply information about the fact that the building is truly the oldest strictly restaurant structure, contact the Avalanche with the information. She also suggested that the same procedure be used if there is anyone who has served longer as a restaura-

The workshop is designed to help the business manager/owner get started with a computer. Participants will learn basic computer concepts and terminology common to most computers and how it relates to practical operation of a microcomputer.

Further, different types of applications, such as spreadsheets, database management systems and word processors will be demonstrated.

Emphasis of the seminar will be to give the beginner information regarding the possible selection and purchase of a microcomputer and software for business use. Also, procedures for assessing your overall computer needs will be covered.
